BROW SHAPES

That Suit You

OVAL-SHAPED FACE

- the arch should be soft, with bold and wide eyebrows to draw attention to the eyes.

SQUARE-SHAPED FACE

- arched brows help to offset the hard angles of a square shape.

ROUND FACE

- sharp and angled arches give structure to a round face, making it seem longer.

TRIANGULAR-SHAPED FACE - bet on soft and rounded arches to soften your features.

HEART-SHAPED FACE

- go for medium-thick brows, gently arched.

OBLONG FACE

- straighter brows with soft edges are ideal; strongly arched brows can further visually elongate the face.
