# KNOW YOUR eye shape

## round

If you see **white above or below your iris** when looking straight ahead, your eyes are round.

## hooded

**Excess skin covers most of your crease**, but some space is visible above your lash line.

## almond

Your **iris touches both upper and lower lash lines** when looking straight ahead.

## upturned

If your outer corners **rise above an imaginary horizontal line** through your pupil, your eyes are upturned.

## downturned

If your outer corners **fall below this line**, your eyes are downturned.

## monolid

A flat eyelid with **little to no visible crease** means you have a monolid.

YOUR LASH STYLE
